About This Game

Types of games

Rhythm Game, Music Game

Save the world with color and music! Rhythm Game!

There was a world where URO alone lives.
However, the color and sound disappeared from the world from one day.
When wearing a glowing ornament, URO is wrapped in color and music
I notice that music and colors are gone from the world.
To regain music and color to the world again,
I started running running my music.

SF ticky world view and beautiful 3D graphics,
And please enjoy various kinds of various sounds that you listen carefully.
You can enjoy from beginner to core user in 3 game modes
The game balance is finished.

Even beginners of music games can easily play fun!

- Operation, DFJK and Space key!
- Retry can be done quickly.
- Break if you get tired! Each stage, auto save function equipped!

There are also game modes that reduced the buttons for beginners!

Memory: 4 GB RAM

Graphics: NVIDIA GeForce GT 720M or better

DirectX: Version 10

Storage: 1 GB available space

English,Japanese,Simplified Chinese,Traditional Chinese

URO is a great little rhythm game, as long as you keep it on easy. If you go further than that it becomes convulated and hard to play. Now this game has performance issues that clear up if you run it at the lowest resolution in full screen. Doesn't really effect gameplay and I barely noticed it's smudginess and actually felt like it added charm. It starts of really simple but by the end on Easy I was failing some challenges. I would recommend if you're looking for something more casual while supporting a publisher that seems to be bringing some really niche interesting titles to the west.
